FOR IMMEDIATE RELEASE
Oct. xx, 2012

NWS Little Rock forecast office to hold open house

The National Weather Service forecast office in North Little Rock will hold an open house for the public from 10:00 a.m. to 4:00 p.m., Oct. 20. Located at the North Little Rock Airport, 8400 Remount Road, this will be the office's first open house in more than 20 years.

Activities include office tours every 30 minutes, during which visitors will be able to interact with the National Weather Service forecasters. A special weather balloon launch will also take place at 12:30 p.m.

National Weather Service partners will also be be on-site to demonstrate and explain the important services they provide. They include:

- Arkansas-Red Basin River Forecast Center
- Arkansas Department of Emergency Management
- Arkansas Forestry Commission
- State Climatologist
- North Little Rock Fire Department
- Arkansas SKYWARN.

By working hand-in-hand with its partners and the public, the National Weather Service hopes to improve preparedness, communications and public responses before, during and after severe weather events.

The National Weather Service is the primary source of weather data, forecasts and warnings for the United States and its territories. It operates the most advanced weather and flood warning and forecast system in the world, helping to protect lives and property and enhance the national economy. Working with partners, the National Weather Service is building a Weather-Ready Nation to support community resilience in the face of increasing vulnerability to extreme weather.
